### LOUNGE IN STYLE

Bring a dash of cool blue into your space with the sleek and comfy Avalon leather sofa with chaise lounge by Turri. (turri.it)

### PLUSH & CUSHY

The plush and inviting Lipp armchair by Piero Lissoni for Living Divani is something we'd like to sink into. With a cushy seat and tufted back and sides, it's an indulgence that's calling out. (livingdivani.it)

### Hide inside

Poem's Mini Basket handbag is made with a special bonding technique that fuses two leathers together, creating an inner lining that is leather as well. (poembags.com)

### All aglow

The firefly's magical quality of emitting light is the inspiration for Firefly, Lladro's first collection of cordless table lamps with chargeable batteries and LED lighting. The translucent quality of handmade Lladro porcelain lets the light filter through to produce a soft, warm glow. (lladro.com)

### NEW STORE LAUNCH!

Nicobar has just opened its second store in Mumbai. Double the reason to rejoice! Head out to Patkar Bungalow, a quaint villa on Turner Road in Bandra. (nicobar.com)

### [Corded]

The Fusionsofabby Umberto Asnago is a tribute to the design language of the 40s. Leather wrapped around the light steel frame adds warmth, while a leather cord stitch across the back ties the look. (i4mariani.com)

## WE'RE FOLLOWING LLADRO

@Ambience Mall, Gurgaon

#WELOVED the new all-white look of the store. Though smaller in size, the revamped store is sprightly bright and exudes a friendly welcoming vibe. The soft curves of the display windows are all so charming.

#WESAYAMEN to the contemporary language of the gallery-inspired interior design, done in collaboration with Spanish designer Jaime Hayon.

#WEFEASTED our eyes on smartly segregated collections that tell the story clearly in each of its assemblage.

#WEALSOFEASTED our olfactory nerves to the beautiful fragrances of new Lladro candles, and have them shortlisted for our next gift shopping.

#WEWEREFULLACTION on seeing the Flamenco collection, and are scouting the city for dance classes.

#WEAREINLOVE with the latest flower vase with its porcelain flowers. The colours are so pretty and the flowers so delicate and look so real, you'll want to touch them..

#WEAREHEADED to the Savannahs after seeing the safari march, and have our next holiday planned to the Land of Oriental arts.

#WERECOMMEND their Firefly lights that are LED-powered and come with a reostat control. The translucent quality of handmade Lladro porcelain lets the light filter through to produce a soft, warm glow, akin to that of a firefly.

## ATTENTION DRAWER

Give a new look to your contemporary bedroom with Ashley Furniture Home Store's Marsilona chest of drawers. Part of their new Bedroom collection, it has a sculptural look with its classic paneling and thick molding. (dashsquare.com)

## DRESS UP

The Madison dressing table and pouffe by Turri exude contemporary classiness, while harking back to the design language of the '60s. Made of wood and upholstered in leather, they are a combination of clean lines and rounded contours.
